-Booker T Washington

Knowledge as a resource of value creation, allows for exceptional marginal rates of productivity. To understand the importance of knowledge sharing, we have to understand the importance of knowledge itself and how it differs from information. NSS SCTCE in association with Insight conducted the third phase of Project Ganitham 2.0 on 01/02/2021 from 6pm to 7pm on the topics Algebra, multiplication and division for the students of 9th and 10th class from Government Tribal High School, Idinjar. The classes for the students were handled by the volunteers of NSS SCTCE which was very productive and conjoint. Different styles of teaching methods helped the students to abstract the concept easily and more effectively. Through this, volunteers got a pure platform to share their acquired knowledge to the students, who are really deserving. The Program made a way to improve various skills of volunteers in different teaching aspects and communication skills. It developed reliance and fulfilment in each and every volunteer who would be the part of this program.

Objective: Students acquired a clear view about the fundamentals of mathematics and volunteers obtain an opportunity to develop their confidence.
