In the list Sandeep and Liju are not attending. They already got three offers which is the maximum limit for any students. Since the process was delayed, they appeared and selected in some other companies.

Sorry for inconvenience

Wipro Pre - Joining Program | Candidate Activity Status

Dear Academic Partner,

Greetings from Wipro!

We have launched the **Pre-Joining Program (PJP)**, a self-directed learning initiative, specially designed to keep the students abreast of the latest trends and technologies in the IT industry. The objective of this program is to essentially

help them learn the foundations of technologies relevant in today's digital world and simultaneously prepare for the future work.

The Pre-Joining Program (PJP) has been hosted online through our in-house application in the month of Feb, PBLApp (Project Based Learning Application). It can be accessed via Internet 24x7 from any location. This course will offer online self-directed learning modules through which the students can learn the required skills at their convenient time, place and pace.

It has been noticed that the on campus students have not participated yet, this is a real concern as we have students from your college who have not logged in. Request you to please drive this activity immediately to 100% success. Please ask the students to complete this program during these holiday period. **Most of the students have just logged in but not completed or put any efforts to complete the program. Please ask them to finish the module.**
