## General Information

The GATE 2022 score is calculated using the formula

$$\text{GATE Score} = S_q + (S_t - S_q) \frac{(M - M_q)}{(M_t - M_q)}$$

where,  
 $M$  is the marks obtained by the candidate in the paper, mentioned on this GATE 2022 scorecard  
 $M_q$  is the qualifying marks for general category candidate in the paper  
 $M_t$  is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)  
 $S_q = 350$ , is the score assigned to  $M_q$   
 $S_t = 900$ , is the score assigned to  $M_t$

In the GATE 2022 score formula,  $M_q$  is 25 marks (out of 100) or  $\mu + \sigma$ , whichever is greater. Here  $\mu$  is the mean and  $\sigma$  is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2022 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.

Graduate Aptitude Test in Engineering (GATE) 2022 was organized by Indian Institute of Technology Kharagpur on behalf of the National Coordination Board (NCB) – GATE for the Department of Higher Education, Ministry of Education (MoE), Government of India.

## General Information

The GATE 2022 score is calculated using the formula

$$\text{GATE Score} = S_q + (S_t - S_q) \frac{(M - M_q)}{(M_t - M_q)}$$

where,  
 $M$  is the marks obtained by the candidate in the paper, mentioned on this GATE 2022 scorecard  
 $M_q$  is the qualifying marks for general category candidate in the paper  
 $M_t$  is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)  
 $S_q = 350$ , is the score assigned to  $M_q$   
 $S_t = 900$ , is the score assigned to  $M_t$

In the GATE 2022 score formula,  $M_q$  is 25 marks (out of 100) or  $\mu + \sigma$ , whichever is greater. Here  $\mu$  is the mean and  $\sigma$  is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2022 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.

Graduate Aptitude Test in Engineering (GATE) 2022 was organized by Indian Institute of Technology Kharagpur on behalf of the National Coordination Board (NCB) – GATE for the Department of Higher Education, Ministry of Education (MoE), Government of India.

The University of Glasgow, charity number SC004401

The University of Glasgow was founded in 1451 by Pope Nicholas V. It is Scotland's second oldest and the United Kingdom's fourth oldest university and one of the most prestigious, with an international reputation for its research and teaching. With over 21,000 students studying for first degrees and nearly 14,000 postgraduates in 2022-2023, Glasgow is also one of the largest universities in the UK.

The four Colleges of the University embrace the main academic disciplines in the 23 Schools. The Colleges are:

Arts  
Science & Engineering

Medical, Veterinary & Life Sciences  
Social Sciences

The University is autonomous and self-governing. Its power to confer its academic awards dates from the Papal Bull of 1451. Its modern constitutional framework derives from the Universities (Scotland) Acts 1858 - 1966. These Acts make provision for the main statutory bodies, including the Senate, which is the supreme academic body, with responsibility for academic standards, the Court, which is the overall governing body, and the General Council, which is formed by the graduates and other members of the University.

#### *First Degrees - Bologna First Cycle awards*

Most undergraduate students take Honours degrees after four years of study. Honours degrees are classified according to student performance: first (the highest), upper second, lower second, or third; exceptionally, they may be awarded as unclassified Honours degrees. Honours degrees in modern languages, which require students to spend a year abroad, take five years. In the tradition of the Scottish ancient universities, many first degrees in arts disciplines have the designation Master of Arts; other first degrees have the designation Bachelor. A number of students graduate after three years with a Designated or General degree. The BDS, BVMS and MB ChB are five-year, non-Honours degrees. Students undertaking the latter degrees may additionally study for an intercalated Bachelor's degree.

#### *Higher Degrees - Bologna Second Cycle awards*

Postgraduate students undertake a wide range of taught and research Master's degrees, which typically involve one or two years of study. Postgraduate Certificates and Diplomas are also available in a number of disciplines. The MDTechEd, MEd, MEng and MSci are degrees that take students to a postgraduate level of study in five years, without their having initially obtained a Bachelor's degree.

#### *Higher Degrees - Bologna Third Cycle awards*

Most doctoral students undertake the PhD. A number of doctorate awards in designated professional areas are also available. The University also awards higher doctorates in a range of disciplines.

The University of Glasgow additionally validates degrees for which students study at a number of associated or accredited institutions that do not have the power to award degrees in their own right. A number of degrees are also awarded jointly with other universities.

Detailed information on the requirements of each degree programme and a full list of degrees awarded are published each year in the University Regulations which is available at: <https://www.gla.ac.uk/myglasgow/apg/policies/uniregs/>. Assessment for each award is carried out in accordance with the University's Code of Assessment in force at the time and published in the relevant edition of the University Regulations. Further programme information is published in programme specifications which are currently available at: <https://www.gla.ac.uk/myglasgow/apg/programmesearch/>

# Description of Higher Education in Scotland<sup>1</sup>

## Introduction

Scotland has a distinctive higher education system and also operates under a devolved government, which includes devolved responsibility for higher education. There is a separate Description of Higher Education in England, Wales and Northern Ireland where the system is different to that of Scotland.

Scotland's distinctive higher education system has 19 higher education institutions (HEIs). The 15 universities, the Open University in Scotland, a college of higher education, an art school, and a conservatoire all receive funding for research and for learning and teaching through the Scottish Funding Council (see <https://www.sfc.ac.uk>); funding is also received from other sources.

The HEIs are independent, self-governing bodies, active in teaching, research and scholarship. Where HEIs are degree awarding bodies they design the curriculum for the degrees they award, set the conditions on which they are awarded and the admissions arrangements. Degrees and other higher education qualifications are legally owned by the awarding institution, not by the state.

The HEIs offer qualifications at undergraduate (Bologna first cycle) and postgraduate (Bologna second and third cycle) levels. In Scotland, the law distinguishes the power to award degrees on the basis of completion of taught programmes (bachelors and most masters degrees) from the power to award Research (doctoral) Degrees. Most universities have powers to award taught and research Degrees. Some other HEIs have powers to award taught Degrees while others offer programmes leading to Degrees awarded by HEIs with Degree awarding powers.

Lists of institutions with powers to award degrees and institutions recognised by authorities in Scotland as being able to offer courses leading to a Degree of another HEI may be found at <https://www.universities-scotland.ac.uk>.

A small number of taught Degrees are available in tertiary colleges by the authority of a duly empowered HEI.

## Qualifications

The types of qualifications awarded at undergraduate (first cycle) and postgraduate level (second and third cycles) in Scotland are described in "The Framework for qualifications of higher education institutions in Scotland" which includes qualifications descriptors, developed with the university sector and published by the Quality Assurance Agency (QAA) (<https://www.qaa.ac.uk>). The Framework was self-certified as compatible with the Framework for Qualifications of the European Higher Education Area, the qualifications framework adopted as part of the Bologna Process, in October 2006. The Framework is also an integral part of a wider national framework: the Scottish Credit and Qualifications Framework (SCQF) that covers all forms of programmes and qualifications from school to doctorates (see Table 1 and <https://www.scof.org.uk>).

Institutions use SCQF levels and credit points for students entering or transferring between programmes or institutions, and use ECTS for transfers within the European area.

## Admission

Admissions requirements for particular programmes are set by the HEIs which offer a range of routes for entry and/or credit transfer into their programmes, and admit students whom they believe have the potential to complete their programmes successfully. The Open University is an open entry institution.

The most common qualification for entry to higher education is the Higher and, for a small number of high tariff courses, the Advanced Higher or, for entrants from the rest of the UK, the General Certificate of Education at "Advanced" level or

comparable qualifications. Pupils seeking to enter a HEI would normally take a number of Highers at an appropriate stage in the Senior Phase (4th, 5th and 6th year) of secondary school, according to the requirements of their own learning journey, or at a tertiary college. HEIs usually require 4-6 Highers for entry, but this may vary with subject. Highers are studied in considerable depth, involving coursework and final examinations. Advanced Highers have historically been taken by some pupils in S6 as a means of extending their specialisation, normally following successful completion of a Higher in that subject. They are also available in some tertiary colleges. Pupils may also take a Scottish Baccalaureate in Sciences, Languages, Expressive Arts, or Social Sciences and these consist of related Highers and Advanced Highers and an interdisciplinary project. Another major route into Degrees, often with full transfer of credit, is from Higher National Qualifications<sup>1</sup> offered in tertiary colleges.

## Quality Assurance

The academic standards of qualifications are secured and the quality of the student learning experience enhanced by the HEIs using a range of processes including extensive use of external examiners and suitably qualified independent external individuals. In some subject areas, Professional, Statutory and Regulatory Bodies (PSRBs) have a role to ensure that programmes meet the needs and standards of a particular profession; PSRBs do not set or regulate the academic standards of awards, which is the responsibility of the Degree awarding body.

HEIs in Scotland demonstrate their public accountability for quality and standards through a national Quality Enhancement Framework which assures academic standards and the quality of learning experiences. It has a strong focus on enhancement as follows:

HEIs take account of the UK Quality Code for Higher Education, which is published by the QAA. The Quality Code is a UK-wide code of practice for quality assurance and enhancement, which includes qualifications frameworks and UK subject level "benchmark statements" as well as extensive guidance on the quality of the student learning experience and provision of public information (see [www.qaa.ac.uk](http://www.qaa.ac.uk)). Higher Education providers use the Quality Code to design their respective policies for maintaining academic standards and to enhance quality. Reviewers use it as a key reference point for the external review and quality assurance of HEIs.

Subject level quality reviews are conducted by HEIs in accordance with guidance issued by the Scottish Funding Council (see <https://www.sfc.ac.uk>) and in light of the Quality Code.

External reviews of HEIs are conducted by the Quality Assurance Agency for Higher Education in Scotland (QAA Scotland). QAA Scotland is an independent body and charity established to provide public confidence in the quality and standards of higher education. The method of external review in Scotland involves teams of peer reviewers, including student and international reviewers. QAA Scotland publishes reports on the outcome of reviews and makes judgements about the effectiveness of the HEIs' arrangements for assuring academic standards and enhancing the quality of the learning experiences offered (see <https://www.qaa.ac.uk>). QAA Scotland also manages a programme of national Enhancement Themes (see <https://www.enhancementthemes.ac.uk/>).

A national development service supports students in their role as active participants in assuring standards and enhancing quality (see <https://www.sparqs.org.uk>).

Notes

1. SCQF levels represent increasing complexity and demand in learning outcome.
2. One credit represents the outcomes achievable by the average student though 10 notional hours of learner effort. In general terms, one full-time undergraduate year is considered to be 120 credits worth of learning. A postgraduate year is 180 credits. 1 ECTS credit is deemed equivalent to 2 SCQF credits. Research degrees - Master of Philosophy (MPhil) and Doctor of Philosophy (PhD) are not credit rated.
3. Graduate Certificates (minimum of 60 SCQF credits) and Graduate Diplomas (minimum of 120 credits) are offered at levels 9 and 10 within the SCQF framework. They are offered for programmes that are for graduates but do not have outcomes that are at postgraduate level.
4. The Bachelors Degree (level 9) leads to employment and in some instances can give access to postgraduate study particularly when accompanied by relevant work or professional experience.
5. At postgraduate levels, the framework and the higher education qualifications are the same as those for the rest of the UK. The Honours Degree levels of the two frameworks are considered to be in broad alignment (the Honours Degree in Scotland normally takes four years and that in the rest of the UK takes three years). Below Honours level the frameworks reflect the different educational structures of Scotland and the rest of the UK.

## General Information

The GATE 2022 score is calculated using the formula

$$\text{GATE Score} = S_q + (S_t - S_q) \frac{(M - M_q)}{(M_t - M_q)}$$

where,

$M$  is the marks obtained by the candidate in the paper, mentioned on this GATE 2022 scorecard

$M_q$  is the qualifying marks for general category candidate in the paper

$M_t$  is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)

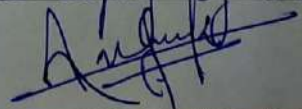

$S_q = 350$ , is the score assigned to  $M_q$

$S_t = 900$ , is the score assigned to  $M_t$

In the GATE 2022 score formula,  $M_q$  is 25 marks (out of 100) or  $\mu + \sigma$ , whichever is greater. Here  $\mu$  is the mean and  $\sigma$  is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2022 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.

Graduate Aptitude Test in Engineering (GATE) 2022 was organized by Indian Institute of Technology Kharagpur on behalf of the National Coordination Board (NCB) – GATE for the Department of Higher Education, Ministry of Education (MoE), Government of India.

**About Your GRE® Score Report**
**Score Reporting Policies**

With the *ScoreSelect*® option, you can decide which test scores to send to the institutions you designate. There are three options to choose from:

- Most Recent option – Send your scores from your most recent test administration
- All option – Send your scores from all administrations in the last five years
- Any option – Send your scores from one OR as many test administrations in the last five years (this option is not available on test day when you select up to four FREE score reports)

Scores for a test administration must be reported in their entirety. Institutions will receive score reports that show only the scores that you selected to send to them. There will be no special indication if you have taken additional GRE tests. See the *GRE® Information Bulletin* for details. The policies and procedures explained in the Bulletin for the current testing year supersede previous policies and procedures in previous bulletins.

Scores will be sent to designated score recipients approximately 10-15 days after a computer-delivered test and 5 weeks after a paper-delivered test. If your scores are not available for any reason, you will see “Not Available” in Your Test Score History.

GRE test scores are reportable according to the following policies:

- For tests taken prior to July 1, 2016, scores are reportable for five (5) years following the testing year in which you tested (July 1 – June 30). For example, scores for a test taken on May 15, 2015, are reportable through June 30, 2020. GRE scores earned prior to August 2011 are no longer reportable.
- For tests taken on or after July 1, 2016, scores are reportable for five (5) years following your test date. For example, scores for a test taken on July 3, 2016, are reportable through July 2, 2021.

Note: Score recipients will only receive scores from test administrations that you have selected to send to them.

**Percentile Rank (% Below)**

A percentile rank for a test score indicates the percentage of test takers who took that test and received a lower score. Regardless of when the reported scores were earned, the percentile ranks for General Test and Subject Test scores are based on the scores of all test takers who tested within the most recent three-year period.

Date of Birth: November 5, 1997

Registration Number: 1273651

Print Date: November 22, 2022

**Retaking a GRE Test**

You can take the *GRE*® General Test *once every 21 days*, up to *five times* within any continuous rolling 12-month period (365 days). This applies even if you canceled your scores on a test taken previously. You can take the paper-delivered GRE General Test and *GRE*® Subject Tests as often as they are offered.

Note: This policy will be enforced even if a violation is not immediately identified (e.g., inconsistent registration information) and test scores have been reported. In such cases, the invalid scores will be canceled and score recipients will be notified of the cancellation. Test fees will be forfeited.

**For More Information**

For information about interpreting your scores, see *Interpreting Your GRE Scores* at [www.ets.org/gre/test-takers/general-test/scores/understand-scores](http://www.ets.org/gre/test-takers/general-test/scores/understand-scores).

For detailed information about your performance on the Verbal Reasoning and Quantitative Reasoning sections of the computer-delivered GRE General Test, access the free GRE Diagnostic Service from your ETS account. This service includes a description of the types of questions you answered right and wrong, the difficulty level of each question, and the time spent on each question. This service is available approximately 15 days after your test administration and for six months following your test administration.

If you have any questions concerning your score report, email GRE Services at [gre-info@ets.org](mailto:gre-info@ets.org) or call 1-609-771-7670 or 1-866-473-4373 (toll free for test takers in the U.S., U.S. Territories and Canada) between 8 a.m. and 7:45 p.m. (New York Time).

### TERMS AND CONDITIONS

#### **Original Documents**

You are required to bring your original documents for the qualifications which are stated on your CAS statement, along with your passport and visa to enable you to enrol at the University.

#### **Confirmation of Acceptance for Studies (CAS) Issuing Policy**

As part of the admissions process, if you have previously studied in the UK, you are required to provide the full details of your UK immigration history, which includes any visa refusals.

There may be occasions whereby we need to contact the UKVI to obtain more information regarding your immigration history. If this is required, we will ask you to sign a consent form to confirm that you authorise the University to request this information. Failure to provide this consent will result in your application being withdrawn.

Depending on the outcome of your immigration history check, this may result in the University being unable to sponsor you for a Tier 4 student visa, and therefore unable to process your application further.

Failure to declare this information may result in a visa refusal.

At the CAS stage of the process, you will be asked to confirm whether all your details are correct. If there are any discrepancies in what you confirm as correct, which in turn results in a visa refusal, the University may be unable to issue any future CAS.

The full CAS issuing policy can be provided on request.

#### **Fraudulent Documents & Payments**

Please note that if a fraudulent document is provided or fraudulent payment has been made (including any attempts of fraudulent payments), your application will be withdrawn with immediate effect and you will not be eligible to apply to the University again in the future. If you are already a current student and carry out any fraudulent activity including but not limited to tuition fee payments, this will result in withdrawal from the University and curtailment of your visa, requiring you to return to your home country.

#### **Duplicate Agent Applications**

If you have applied through one of our contracted agents, and subsequently wish to change to a different agent, you will be asked to confirm this in writing to the International Office. Please also note that your original application will be withdrawn, and we will treat your new agent request as a new application.

#### **Alternative Offers**

After considering your application, we may feel that an alternative course choice is more suitable for you. Subsequently we will make a conditional offer as appropriate, and you will be notified that an alternative offer has been made. Please note that this may include being offered one of our pre-degree programmes, taught here on University campus. If we feel that you require a pre-degree programme, we will refer your application to Study Group, who will then contact you directly regarding a place on one of the courses here with us.

#### **Discontinuation & Withdrawal of Courses**

In the unfortunate event that a course that you have been offered a place for is discontinued, we will contact you to make you aware and to provide options for alternative courses.

#### **Sponsored Students**

If you declare that you are sponsored (for example by your government or employer) and have provided us with a financial guarantee to confirm that your sponsor is responsible for your tuition fees, we are then obliged to provide updates on your progress and attendance as outlined in the terms and conditions of your financial guarantee, including where appropriate details of any sanctions.

In two instalments into the University bank account, as outlined below.

**Intake: September - First Instalment: 31 October. Second Instalment: 31 January**

**Intake: January - First Instalment: 31 January. Second Instalment: 30 April**

Please note that the instalments stated above are the final payment deadlines, and you are expected to pay in good time before these final dates. Failure to pay your tuition fees will result in a block on your student account initially, which means that you will not have access to all the course materials and access of the library. Continued failure to pay will result in withdrawal from the course, and withdrawal of sponsorship of your visa as required.

Deposit amounts paid are detailed on the Confirmation of Acceptance for Studies (CAS) issued to enable them to apply for a visa. Where additional payments are received after a CAS has been issued, this will be noted on the UKVI Sponsor Management System. Please note however, that this can only be noted if you have not yet applied for your visa.

Where this results in an outcome which does not please you or you do not feel comfortable approaching the staff member concerned, you can submit a formal complaint via the [Complaints Portal](#). Once the complaint is processed you will receive a formal notification of the outcome which will include information on any relevant appeals processes.

### External Appeals
