

Report on Yoga and Meditation Awareness Programme

Date: 3rd and 4th August 2018 *Venue:* Sree Chitra Thirunal College of Engineering

Introduction: Sree Chitra Thirunal College of Engineering organized a two-day Yoga and Meditation Awareness Programme on the 3rd and 4th of August 2018. The event aimed to promote physical, mental, and emotional well-being among students and faculty members through the practice of yoga and meditation.

Day 1 Highlights: The first day of the programme commenced with an inaugural ceremony presided over by the college principal, faculty members, and distinguished guests from the field of yoga and meditation. The ceremony began with the lighting of the lamp followed by an invocation to seek blessings for a successful event. The principal delivered the inaugural address, emphasizing the importance of incorporating yoga and meditation into daily life for holistic development.

Following the inaugural ceremony, participants engaged in various yoga sessions conducted by experienced instructors. These sessions covered different aspects of yoga, including asanas (postures), pranayama (breathing exercises), and relaxation techniques. Participants were guided through each posture with detailed instructions on correct alignment and breathing.

In addition to yoga sessions, informative lectures were held on the benefits of yoga and meditation for overall health and stress management. Experts shared insights into the science behind yoga and its positive effects on physical fitness, mental clarity, and emotional stability. Participants actively participated in interactive discussions and expressed their eagerness to integrate yoga into their daily routines.

Day 2 Highlights: The second day of the programme focused on meditation practices and mindfulness techniques. Participants learned various meditation methods, including mindfulness meditation, loving-kindness meditation, and body scan meditation. Experienced meditation instructors guided participants through each practice, emphasizing the importance of focus, concentration, and relaxation.

In addition to meditation sessions, workshops were conducted on stress management and relaxation techniques. Participants learned practical strategies for coping with stress and anxiety in academic and personal life. They were encouraged to cultivate a regular meditation practice to enhance resilience and mental well-being.

The programme concluded with a closing ceremony, where participants shared their feedback and experiences. Certificates of participation were distributed to all attendees as a token of appreciation for their active involvement.

Conclusion: The Yoga and Meditation Awareness Programme at Sree Chitra Thirunal College of Engineering was a resounding success, providing participants with valuable knowledge and practical tools for enhancing their physical, mental, and emotional well-being. The event underscored the importance of incorporating yoga and meditation into educational institutions to promote a culture of holistic wellness among students and faculty members. Such initiatives are essential for nurturing healthy and balanced individuals who can contribute positively to society.
